<span>FreshMarket</span></h2>
                        <p> Today, Korbee executes a seasonal menu of organic,
locally sourced dishes for breakfast, lunch and dinner at both their cozy SoHo
location and more spacious outpost in Williamsburg, Brooklyn (opened in 2017)
– paired with fresh
                            juices, creative & refreshing cocktails, and a
selection of organic and biodynamic wines. Eggheads everywhere can now
recreate the restaurant’s signature bowls, sandwiches, and breakfast cocktails
with: The Cookbook (released
```

```
                            in 2017). Maintaining signature playful-yet-
minimalist aesthetic, the book comically and thoroughly guides readers through
all egg-cooking techniques and provides recipes for more than 100 inventive
egg-centric dishes.

                    </div>

                        <h2>Here is something about me..</h2>
                        <p>Hi, my name is Djordje Taskovic. I am a beginner
when it comes to web design but keep my expectations high and i am looking
forward to progress even further. Young and passionate developer, always happy
to learn new things and
                            evolve. Intrested in 3D modeling, web design,
photography, writing, drawing and learning new things. In free time I love
reding a good book or comic, watch series and movies etc.;
                        </p>
                    </div>
                </div>

            </div>

        "opis": "Vegetables are important sources of many nutrients, including
potassium, dietary fiber, folate (folic acid), vitamin A, and vitamin C. ...
Dietary fiber from vegetables, as part of an overall healthy diet, helps
reduce blood cholesterol levels and may lower risk of heart disease.Virtually
all of the more important vegetables were cultivated among the ancient
civilizations of either the Old or the New World and have long been noted for
their nutritional importance.As the birth of modern human civilizations,
vegetables were identified as the sourced of great medicinal and nutritional
power.Vegetables are usually classified on the basis of the part of the plant
that is used for food."

        "opis": "A diet rich in vegetables and fruits can lower blood
pressure, reduce the risk of heart disease and stroke, prevent some types of
cancer, lower risk of eye and digestive problems, and have a positive effect
upon blood sugar, which can help keep appetite in check.Hop shoots are eaten
like asparagus (and even look like one), but the difference is that these
shoots are very rare. They only emerge once a year during the spring and
disappear quickly, which makes it hard to harvest in the wild. Hops are the
herbs of beers, and the part that brewers don't use (the green tips of the hop
plant) is called hop shoots."

        "naziv": "Why are vegetables better than fruit?",
        "opis": "Both are high in fiber as well as vitamins, minerals,
antioxidants and plant compounds. Fruits and vegetables are also naturally low
in sodium and fat ( 2 ). As you might expect given their sweet taste, fruits
tend to have a higher amount of natural sugar and calories compared to most
varieties of vegetables.The term vegetable usually refers to the edible
portions of certain herbaceous plants – roots, stems, leaves, flowers, fruit,
or seeds.These plant parts are either eaten fresh or prepared in a number of
ways, usually as a savory, rather than sweet, dish.Originally, vegetables were
collected from the wild by hunter-gatherers and entered cultivation in several
parts of the world, probably during the period 10,000 BC to 7,000 BC, when a
new agricultural way of life developed."
